## CoachChris.ca

## 12 Week Paris Ancaster Program

## Training Plan Guidelines

- Each day has a specific workout prescription based on your Power zone from your Functional Threshold Power (FTP) or time in heart rate or perceived exertion zones and at a specific cadence
- Every ride should start the same way as follows:
$5 \mathrm{~min} \mathrm{Z1}$ (in a light gear i.e. small ring on road bike,
light gear on MTB)

10 min Z 2 (usually also in small ring or light gear)
Stretch
5 min Z2
After you have completed the 20 min warmup you begin the outlined workout. The warmup is included in the total time for the ride.

- After you are done the prescribed pieces/intervals the remainder of your ride should as much as possible be in Z2. For rest between intervals and pieces ride in low Z2 in an easy gear (small ring on road bike, light gear on MTB)
- When you are riding in Z2 it is assumed that occasionally on climbs and in strong winds you may get into Z3. Attempt to get back into Z2 as soon as possible.

## CoachChris.ca

- As a general rule you should have a cadence of 90 rpm . For an average rider this will mean you will use the big ring with little wind or with a tail wind and a lighter gear on the MTB with a headwind or on hilly terrain.
- Z4 intensity, sprints and power pieces should be done in the big ring unless on a hill. Spin pieces will usually be done in the small ring or lighter gear on the MTB.
- Every ride should finish the same way as follows:

5 min Z2 (small ring or lighter gear on the MTB)
5 min Z1 (small ring or lighter gear on the MTB)
This time does count toward total ride time as did the warm up.

## Appendix 1 Anaerobic Threshold Heart Rate or FTP Power Field Test and Zone Calculation

Perform a 20 min pre test warmup as follows:

> 5 min Z 1 (in a light gear i.e. small ring on road bike, lighter gear on the MTB)
> 10 min Z2 (usually small to medium size gear)

## Stretch

5 min Z3
After you have completed the 20 min warmup spin easy in Z1
For 2 minutes to allow your heart rate to come down
Start the time trial test in the big chain ring from a complete standstill or from a moderate spin on the fluid or smart trainer

## CoachChris.ca

The test is a 20 minute all out effort, as if in a 20 minute road or mountain time trial race.

For heart rate Time your test for the first 5 minutes, but do not start your heart rate monitor until after the first 5 minutes of the test. After 5 minutes start your heart rate monitor to enable it to calculate average heart rate. (You will be calculating the average heart rate only on the final 15 minutes of the 20 minute test).

As soon as the test is finished, stop your heart rate monitor and get your average heart rate reading.

Your average heart rate for the 15 minutes will equate to your anaerobic threshold heart rate

For FTP you want the power for the entire 20 minutes. Take your best 20 minute power average from the test and divide it by $104 \%$ to determine your Functional Threshold Power (FTP)

After the test ensure you spin in a light gear in Z2
For the calculation of your zones your result is your anaerobic threshold or FTP Simply calculate your zones as a percentage of your threshold or FTP

## CoachChris.ca

## HEART RATE SYSTEM OF TRAINING INTENSITY CATEGORIES

| Intensity Category | Duration as Training (minutes) | Intensity Explanation | Heart Rate Zone | Goals of Intensity | Practical Examples |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Zone 1 | >45 | Enjoyable, little or no pressure on peddles | Less than 72\% of Anaerobic Threshold | Regenerati on <br> Enjoyment <br> Technique | Bike Walk <br> Rest Day |
| Zone 2 | >45 | Medium Pace <br> Talking is easy | 72-84\% of <br> Anaerobic <br> Threshold | Basic Endurance <br> Maintenanc e | Base Miles <br> Long Slow Distance |
| Zone 3 | 30-90 | Talking is moderately difficult | 85-93\% of Anaerobic Threshold | Fat/Carbo mix <br> High Intensity Aerobic | 30 minute session |
| Zone 4 | 5-10 | Talking is possible but very difficult <br> Time Trial Pace | 94-100\% of <br> Anaerobic <br> Threshold | Increase Anaerobic Threshold <br> Time Trial Feeling | 5-10 minute sessions |
| Zone 5 | 2-4 | Talking Is Nearly Impossible | 101-107\% <br> of <br> Anaerobic <br> Threshold | Race <br> Speed <br> Feeling <br> Ability to Jump/Bridg e | 2-4 minute Interval <br> 3000m pursuit |
| Zone 6 | 45s-2min | All out <br> Talking not possible | 101\%+ | Lactate Tolerance Anaerobic Capacity | Ladders |

## CoachChris.ca

## POWER ZONES BASED ON FTP

| Intensity Category | Duration as Training (minutes) | Intensity Explanation | Heart Rate Zone | Goals of Intensity | Practical Examples |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Zone 1 | >45 | Enjoyable, little or no pressure on peddles | Less than $55 \%$ of FTP | Regenerati on <br> Enjoyment <br> Technique | Bike Walk <br> Rest Day |
| Zone 2 | >45 | Medium Pace <br> Talking is easy | $\begin{array}{\|l} 55-75 \% \\ \text { of FTP } \end{array}$ | Basic Endurance <br> Maintenanc <br> e | Base Miles <br> Long Slow Distance |
| Zone 3 | 30-90 | Talking is moderately difficult | $\begin{aligned} & 75-90 \% \\ & \text { of FTP } \end{aligned}$ | Fat/Carbo mix <br> High Intensity Aerobic | 30 minute session |
| Zone 4 | 5-10 | Talking is possible but very difficult <br> Time Trial Pace | \|91-105\% Of FTP | Increase Anaerobic Threshold <br> Time Trial Feeling | 5-10 minute sessions |
| Zone 5 | 2-4 | Talking Is Nearly Impossible | $\begin{array}{\|l} \text { 106-120\% } \\ \text { Of FTP } \end{array}$ | Race <br> Speed <br> Feeling <br> Ability to Jump/Bridg e | 2-4 minute Interval <br> 3000m pursuit |
| Zone 6 | 45s-2min | All out <br> Talking not possible | $\begin{aligned} & 121 \%+ \\ & \text { Of FTP } \end{aligned}$ | Lactate Tolerance Anaerobic Capacity | Ladders <br> 30 second intervals |

## CoachChris.ca

## Appendix 2 Rate of Perceived Exertion Training Plan Guidelines

- If you choose not to use heart rate or power you can train based on rate of perceived exertion as follows.
- Each day has a specific workout prescription based on your perceived exertion zones
- Every ride outside should start the same way as follows:
$5 \min 4-5$ exertion (out of 10 )
(in a light gear i.e. small ring on road bike, middle ring on MTB)

10 min 5-6 exertion (out of 10 )
(usually also in small or middle ring)
Stretch
$5 \min 5-6$ exertion (out of 10)
After you have completed the 20 min warmup you begin the outlined workout. The warmup is included in the total time for the ride. RPE = Rate of Perceived Exertion

- After you are done the prescribed pieces/intervals the remainder of your ride should as much as possible be between 6-7 RPE. For rest between intervals and pieces ride at 5-6 RPE in an easy gear
- When you are riding at 6-7 RPE it is assumed that occasionally on climbs and in strong winds you may get up to 8 RPE Attempt to get back down to 6-7 RPE as soon as possible
- Every ride outside should finish the same way as follows:

5 min RPE 5-6
5 min RPE 4-5
This time does count toward total ride time as did the warm up.

## CoachChris.ca

## RPE SYSTEM OF TRAINING INTENSITY CATEGORIES

| Intensity Category | Duration as Training (minutes) | Intensity Explanation | Exertion Rating on a scale of 1-20 | Goals of Intensity | Practical Examples |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Zone 1 | >45 | Enjoyable, little or no pressure on peddles | 1-4 | Regeneration <br> Enjoyment <br> Technique | Active Recovery <br> Rest Day |
| Zone 2 | >45 | Medium Pace <br> Talking is easy | 5-6 | Basic Endurance <br> Maintenance | Base Miles <br> Long Slow Distance |
| Zone 3 | 30-90 | Talking is moderately difficult | 7 | Fat/Carbo mix <br> High Intensity Aerobic | 30 minute session |
| Zone 4 | 5-20 | Talking is possible but very difficult <br> Time Trial Pace | 8 | Increase <br> Anaerobic <br> Threshold <br> Time Trial <br> Feeling | 5-10 minute sessions |
| Zone 5 | 2-4 | Talking Is Nearly Impossible | 9 | Race Speed Feeling <br> Ability to Jump/Bridge | 2-4 minute Interval <br> 3000m pursuit |
| Zone 6 | 45s-2min | All out <br> Talking not possible | 10 | Lactate Tolerance Anaerobic Capacity | Ladders |
